## About Event

Join us for an evening of deep dives and networking at the **BrowserStack QA Meetup**. We're bringing together testing enthusiasts and industry experts to explore how Artificial Intelligence is fundamentally reshaping the landscape of Test Automation and Performance Engineering.

Whether you're looking to optimize your scripts or future-proof your load testing strategy, this meetup is designed to give you actionable insights you can take back to your team.

## Featured Sessions

### 1. Transforming Test Automation with Artificial Intelligence

- **Speaker:** Vineet Kumar
- **The Scoop:** AI is no longer a buzzword; it's a productivity multiplier. Vineet will explore how AI-driven tools are automating script maintenance, improving self-healing capabilities, and shifting testing from reactive to predictive.

### 2. Performance & Load Testing with JMeter in the AI Era

- **Speaker:** Wasana
- **The Scoop:** High traffic shouldn't mean high stress. Wasana will demonstrate how to leverage JMeter alongside modern AI techniques to simulate realistic user behavior, analyze bottlenecks faster, and
